

## Visions of Wealth with Vertical Specific Solutions

Looking for ways to close more industry specialized deals? Wishing you had a better understanding of Endorsed Solutions, Certified Solutions, and how they complement each other to provide an end to end solution for your prospects? Are you passing up opportunities in Process Manufacturing, Service Based Manufacturing or Repair, or Wholesale Distribution? Join us Sunday, August 12 at Sage Summit 2012 for the Partner Product-Intensive Session: *Vertical Options and Sage 500 ERP!*

### Who Should Attend?

Every partner interested in providing the right industry specific solution should attend this important session. See demonstrations from all of our top developer partners and see how the individual solutions come together to address the common business needs presented by industry, vertical, micro-vertical, or cross-function.

### What Solutions Are Included?

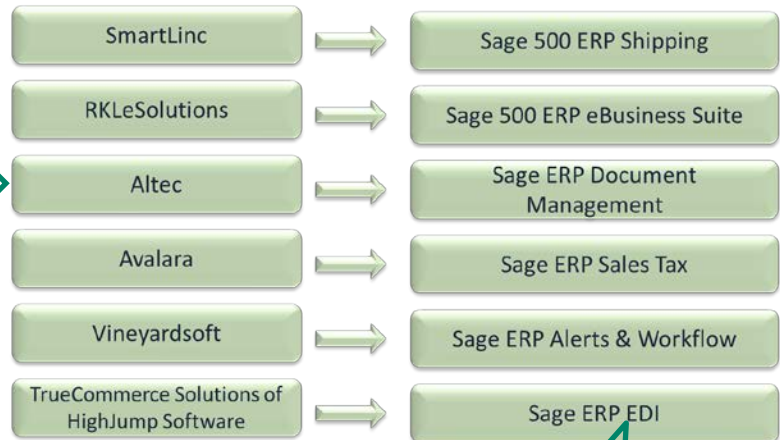

*"Solution selling was HUGE for us ... it's the difference between getting asked for a second dance or sitting on the sidelines...even if it's not all included in the initial sale, the CEO knows we have what he needs...our revenue increased 20% on software and 40% on services."*
